

EMPLOYEE USE OF SOCIAL MEDIA

The District recognizes the importance of using social media as a communication and learning tool. Employees are expected to exercise good judgement and serve as positive ambassadors for the District and appropriate role models for students while using social media. This policy provides guidance for employee use of social media, which for purposes of this policy includes: blogs, wikis, microblogs, message boards, chat rooms, electronic newsletters, online forums, social networking sites, and other sites and services that permit users to share information with others in a contemporaneous manner.

District presence on any social media site, including school-related accounts, such as clubs, teams, field trips, courses and other affiliations with the District or a District school, must be authorized by the Principal or designee. Any sites, accounts or pages existing absent prior authorization will be subject to review, editing and/or removal. Only individuals authorized by the District may publish content to a District social media site.

District Responsibilities

The District acknowledges that employees have the right under the First Amendment, in certain circumstances, to speak on matters of public concern. However, the District shall regulate the use of social media by employees, including employees' personal use of social media, when such use:

- Interferes or disrupts the educational environment of the school district;
- Harasses students, coworkers or members of the community;
- Creates a hostile work environment;
- Poses a safety threat to students, coworkers, or school operations;
- Breaches confidentiality, including but not limited to, posting data, documents and photographs;
- Implies that the employee is acting as an agent of the school district by referencing school or district images, logos, official names, or materials; or
- Violates state or federal laws, district policy or regulations, or, if applicable, the negotiated agreement.

The District prohibits personal social media use while on-duty; except on breaks or when authorized by the Superintendent or designee. District computers and/or the district network shall be used solely for classroom/district-related purposes.

Employee's Responsibilities

Employees must maintain professionalism in their interactions with students and the community at all times. The following principles apply to professional use of social media on behalf of the District as well as personal use of social media by the employee.

- Employees shall not post any information online that violates state and federal laws, District policy or regulation, or, if applicable, the negotiated agreement.

- The District recognizes that students, staff, or other members of the public may create social media sites representing clubs, teams, or other groups within the District. When employees choose to join or interact with these social media sites, they do so in their capacity as an employee of the District. Employees shall maintain appropriate employee-student relationships at all times and refrain from online interactions with students on social media sites outside of those forums dedicated to academic or school related use.
- Employees are encouraged to maintain a clear distinction between their personal social media use and any District-related social media sites. When practical, employees should keep District social media accounts separate from personal accounts. Employees that associate themselves with the District may use the following disclaimer on their personal social media site: “The views on this site are my own and do not necessarily represent the views, opinions, vision or strategies of the **Apple Creek School District.**”
- Employees who participate in social media sites may include information about their work with the District as part of their personal profile, as it would relate to a typical social conversation. This may include:
